COVER DRAWING

Michigan State Capitol:

This image, with flags flying to indicate that both chambers of the legislature are in session, may have originated as an etching based on a drawing or a photograph. The artist is unknown. The drawing predates the placement of the statue of Austin T. Blair on the capitol grounds in 1898.

PAGE GRAPHICS

Capitol Dome:

The architectural rendering of the Michigan State Capitol's dome is the work of Elijah E. Myers, the building's renowned architect. Myers inked the rendering on linen in late 1871 or early 1872. Myers' fine draftsmanship, the hallmark of his work, is clearly evident.

Because of their size, few architectural renderings of the 19th century have survived. Michigan is fortunate that many of Myers' designs for the Capitol were found in the building's attic in the 1950's. As part of the state's 1987 sesquicentennial celebration, they were conserved and deposited in the Michigan State Archives.

East Elevation of the Michigan State Capitol:

When Myers' drawings were discovered in the 1950's, this view of the Capitol – the one most familiar to Michigan citizens – was missing. During the building's recent restoration (1989-1992), this drawing was commissioned to recreate the architect's original rendering of the east (front) elevation.

RELATIONSHIP TO THE MICHIGAN ADMINISTRATIVE CODE

The *Michigan Administrative Code* (1979 edition), which contains all permanent administrative rules in effect as of December 1979, was, during the period 1980-83, updated each calendar quarter with the publication of a paperback supplement. An annual supplement contained those permanent rules, which had appeared in the 4 quarterly supplements covering that year.

Quarterly supplements to the Code were discontinued in January 1984, and replaced by the monthly publication of permanent rules and emergency rules in the *Michigan Register*. Annual supplements have included the full text of those permanent rules that appear in the twelve monthly issues of the *Register* during a given calendar year. Emergency rules published in an issue of the *Register* are noted in the annual supplement to the Code.

SUBSCRIPTIONS AND DISTRIBUTION

The *Michigan Register*, a publication of the State of Michigan, is available for public subscription at a cost of \$110.00 per year. Submit subscription requests to: DMB, Office of Administrative Services, P.O. Box 30026, 320 South Walnut Street, Lansing, MI 48909. Checks Payable: State of Michigan. R 408.834 Wire rope.

Rule 34. (1) The owner/operator or person designated by the owner/operator shall thoroughly examine wire rope. Wire rope found to be damaged shall be condemned and replaced with new rope of proper design and capacity. Any of the following conditions shall be cause for rope replacement:

- (a) In running ropes, 6 randomly distributed broken wires in 1 rope lay, or 3 broken wires in 1 strand in 1 rope lay. A rope lay is the length along the rope in which 1 strand makes a complete revolution around the rope.
- (b) In pendants or standing ropes (ropes bearing the entire load and subjected to constant pressure and surge shocks), evidence of more than 1 broken wire in 1 rope lay.
- (c) Abrasion, scrubbing, or peening causing loss of more than 1/3 of the original diameter of the outside wires.
- (d) Severe corrosion.
- (e) Severe kinking, severe crushing, or other damage resulting in distortion of the rope structure.
- (f) Heat damage resulting from a torch or arc caused by contact with electrical wires.
- (g) Reduction from normal diameter of more than 3/64 inch for diameters up to and including 3/4 inch; 1/16 inch for diameters 7/8 inch to 1-1/8 inches; 3/32 inch for diameters 1-1/4 inches to 1-1/2 inches. Marked reduction in diameter indicates deterioration of the core resulting in lack of proper support for

the load-carrying strands. Excessive rope stretch or elongation may be an indication of internal deterioration.

(h) Bird-caging or other distortion resulting in some members of the rope structure carrying more load than others.

(i) Noticeable rusting or development of broken wires in the vicinity of attachments. If this condition is localized in an operating rope, the section in question can be eliminated by making a new attachment. This may be done rather than replacing the entire rope.

(2) Wire ropes used to support, suspend, bear, or control forces and weights involved in the movement and utilization of tubs, cars, chairs, seats, gondolas, other carriers, the sweeps or other supporting members of a ride or device shall not be lengthened or repaired by splicing.

(3) Couplings, sockets, and fittings shall be of a design and type approved by the board and installed in accordance with the instructions or specifications of the designer, engineer, or manufacturer.

R 408.837 Ride location.

Rule 37. (1) A ride shall be placed on solid footings and shall be secured to prevent shifting, tipping, swaying, or erratic motion. The provision pertinent to erratic motion or sway does not apply to a ride designed to permit flotation characteristics or flexibility. Use of shim blocks shall be kept to a minimum. Depressions in the ground near the ride footings shall be filled and tamped and adequate means of drainage shall be provided to prevent water from collecting and softening supporting areas. The area surrounding the ride shall be clear and shall be kept free from trash and tripping hazards.

(2) A fixed ride permanently erected in an amusement park shall be set on properly designed and constructed foundations or footings and shall be secured to these footings in a manner to prevent shifting, tipping, swaying, or erratic motion. The provision pertinent to erratic motion or sway does not apply to a ride designed to permit flotation characteristics or flexibility.

(3) A ride shall not operate at 1 location for more than 30 days unless either approved foundations or footings are installed, according to the recommendations of the manufacturer.

R 408.838 Leveling and alignment.

Rule 38. Corner posts, central columns, or support structures of a ride designed to operate on a perpendicular axis shall be plumb and secured so that the path of the sweeps or platforms shall be level and operate on a true horizontal plane at right angles to the axis of the pivot. A ride with carriers designed to operate on a horizontal axis shall be leveled so that the carriers orbit in a true perpendicular plane. The base of a ride that has a combination of orbiting planes or a ride that has carriers that operate normally in a plane other than true horizontal or vertical shall be leveled and plumbed and secured so that they will not tip or shift and will be stable under the most adverse operating conditions, except for a ride designed to permit flotation characteristics or flexibility or designed to operate properly whether the base is plumb or level or not.

R 408.839a Water slides.

Rule 39a. A water slide that conveys passengers shall, in addition to other applicable rules, be in compliance with all of the following requirements:

(a) Each water slide shall be designed and constructed to have a minimum safety factor of 2.

(b) Each water slide shall be designed and constructed to retain the passengers within the water slide during the ride.

(c) At each loading area, a hard surface which is other than earth and which is reasonably level shall be provided. The surface shall be large enough to accommodate the intended quantity of passengers.

- (d) If the elevation of a loading surface of a water slide is more than 12 inches above the elevation of an adjacent area, then guardrails shall be installed on the exposed sides of the loading area.
- (e) A water slide may terminate in a swimming pool or in a body of water such as a lake, river, stream, or artificial lake or reservoir. The design of the slide and its termination point shall meet the requirements of the act and these rules.
- (f) If the landing area or runout of a waterslide is in a public swimming pool, the landing area or runout of the waterslide shall be specified by the designer in accordance with R 408.821 of these rules. Swimming in this area, other than to exit the flume or landing or runout area, is prohibited.
- (g) If the landing area or runout of a waterslide is in an enclosed tank or in a pool used only to exit the waterslide ride, the landing area or runout shall be specified by the designer in accordance with R 408.821 of these rules. This landing area or runout is not a public swimming pool.
- (h) The quality of the water in a swimming pool termination point is governed by rules for public swimming pools promulgated pursuant to the provisions of 1978 PA 368, MCL 333.12522, and administered by the department of environmental quality. The quality of water in a termination point other than a swimming pool is governed by rules for bathing beach water quality promulgated pursuant to the provisions of 1978 PA 368, MCL 333.12544, and administered by the department of environmental quality.
- (i) A water slide shall have at least 1 attendant located at the loading area at all times when the ride is being operated for the use of the public. A water slide attendant shall be trained, prepared, and capable of controlling the frequency of departure of passengers from the loading area. The design and operation of a loading area common to more than 1 course shall permit an attendant to remain knowledgeable of the disposition of each passenger. One attendant shall be sufficient to dispatch riders on more than 1 course from a common loading area, if a mechanical system or operational controls are used to regulate rider dispatch on each affected course.
- (j) There shall be at least 1 attendant in the unloading area at all times when the ride is being operated for the use of the public. An attendant in an unloading area shall be trained in cardiopulmonary resuscitation and shall be trained, prepared, and capable of assisting any passenger exiting the water slide. One attendant shall be sufficient to operate the termination point common to more than 1 water slide, if the owner-operator of the water slide shall provide sufficient attendants in the unloading area to ensure that each attendant can scan the entire area for which he or she is responsible every 10 seconds and respond within the area within 20 seconds.
- (k) If the entire water slide is not visible to the attendant at the loading area or if the attendant is controlling entry to multiple courses, then some form of 2-way communication shall be provided between the attendants of the ride to ensure that passenger loading is stopped if there are problems.

R 408.841 Hazardous conditions.

Rule 41. During a lightning storm, high-wind storm, a period of tornado alert or warning, or fire, or when violence, riot, or other civil disturbance occurs or threatens to occur in an amusement park, a carnival lot, or in an adjacent area, passengers shall be evacuated from a ride and the ride shall be shut down and secured immediately. Operation shall not resume until the situation has returned to a normal, safe operating condition.

R 408.843 Personal injuries and deaths.

Rule 43. (1) Provision shall be made to render first aid when persons are injured on or around any ride.
(2) An owner/operator shall report, in writing to the department, an accident resulting in injury to any person within 24 hours after occurrence.

(3) In addition to the requirements of subrule (2) of this rule, the owner/operator shall immediately report to the department by telephone any accident in which a fatality occurs or a person suffers a fracture, concussion, laceration, or other traumatic injury requiring immediate surgical or medical care resulting from structural or mechanical failure of a ride, or in which it might appear that the construction, design, or function of the ride is directly involved. If an accident specified in this subrule occurs on a non-workday of the department, the owner/operator shall report the incident to the department by 9:00 a.m. of the next business day. The department, after consultation with the owner/operator, may require that the scene of an accident be secured and not disturbed to any greater extent than necessary for removal of the deceased or injured persons. If a ride is removed from service due to an accident, the department shall order an immediate investigation of the secured site and the ride shall be released for repair and operation only after the investigation is completed.

R 408.844 Mechanical failure reports.

Rule 44. The owner/operator of a carnival-amusement ride shall report a major breakdown to the department within 24 hours after occurrence of the incident by telephone or other media of immediate communication. The owner/operator shall confirm this report using the form provided by the department. This report shall be forwarded to the department within 7 days after the occurrence of the reportable incident. Upon being advised of a major breakdown, the department may order the ride to be withheld from operation and the department shall conduct an immediate investigation. The ride shall be released for repair and operation only after completion of the department investigation.

OPINIONS OF THE ATTORNEY GENERAL

COUNTIES: Payment of pension benefits to reemployed
retirants via a deferred retirement option
RETIREMENT AND PENSIONS: plan (DROP)

Consistent with MCL 46.12a(28), a county may adopt a deferred retirement option plan (DROP) and may, with approval of the affected employee, pay the employee's retirement or pension benefit into the DROP program if (1) the reemployed retirant works less than 1,000 hours per 12-month period or the position is an elected or appointed position meeting the requirements of MCL 46.12a(b)(i)(B)-(D); (2) the employee is not eligible for any employee benefits other than those required by law or those provided by virtue of being a retirant; and (3) the employee is not a member of the county's retirement plan and does not receive additional retirement credits during the period of reemployment.

Opinion No. 7122

January 14, 2003

Honorable Alan Sanborn
State Senator
The Capitol
Lansing, Michigan 48913

You have asked whether, consistent with MCL 46.12a(28), a county may adopt a "deferred retirement option plan" (DROP) for retired county employees who become reemployed by the county.

Information supplied with your request indicates that Macomb County is considering adopting a DROP arrangement whereby any county employee eligible to draw a full retirement benefit could elect to participate in the DROP.¹ While Macomb County has not finalized the terms of its DROP proposal, under the typical DROP arrangements described in the materials supplied to this office, a DROP participant could continue in county service for up to five years. The employee would earn his or her position's usual salary during the continued service, but would no longer contribute to, and would not earn service credit for, the county pension plan. The employee's retirement allowance would be calculated as of the DROP election date and, during the employee's continued county service, a

percentage (up to 100%) of the allowance would be paid monthly into a DROP account established for the employee. The DROP account would earn interest at a fixed rate.

The employee would not have access to the DROP account until he or she finally leaves county service. At that time, the DROP account money could be (1) paid out in a lump sum, (2) rolled over into an IRA or 401(k) account, (3) converted into monthly payments to supplement the employee's "frozen" retirement allowance, or (4) drawn out depending on the employee's financial needs and applicable DROP distribution rules.²

A county has only those powers granted to it by the Constitution or the Legislature. *Alan v Wayne County*, 388 Mich 210, 245; 200 NW2d 628 (1972). A county may not adopt a pension plan that contravenes state law and, in particular, MCL 46.12a. *Gray v Wayne County*, 148 Mich App 247; 384 NW2d 141, *lv den* 426 Mich 872 (1986). Thus, for example, a county may not implement a "20 and out" program when MCL 46.12a specifies that employees must have 25 years of service or attain age 60 with at least 5 years of service to retire with full benefits. *Gray, supra*.³

The authority of a county to provide pension benefits for county employees is set forth in the county pension plan act, MCL 46.12a. Nothing in that act precludes a county, with the consent of the

¹ The employee would have to be, for example, at least age 55 with 25 years of service. MCL 46.12a(1)(b).

² While not precedential, the Internal Revenue Service has ruled favorably on the federal tax treatment of certain lump sum distributions from a DROP account. Private Letter Ruling 200219042.

³ Because your letter makes no reference to any collective bargaining agreement, this opinion does not address what impact, if any, a collective bargaining agreement might have on the question. 1988 PA 499 amended MCL 46.12a to authorize counties to enter into collective bargaining agreements that provide "retirement benefits that are in excess of the retirement benefits otherwise authorized to be provided under this section." See MCL 46.12a(27). Thus, a county could agree to calculate an employee's final average compensation based upon his or her three highest consecutive years of compensation, rather than the five years mandated by MCL 46.12a(2)(a), if part of a collective bargaining agreement reached under the Public Employment Relations Act, MCL 423.201 *et seq.* *Macomb County Professional Deputies Assn v Macomb County*, 182 Mich App 724; 452 NW2d 902 (1990).

affected employees, from establishing a DROP system for payment of otherwise lawful pension or retirement benefits to retired county employees who become reemployed by the county. The act does, however, impose limitations on the authority of the county to make continued retirement or pension benefit payments to those employees irrespective of whether a DROP program has been adopted. MCL 46.12a(28)⁴ provides in pertinent part:

(28) One of the following conditions applies to a retirant who is receiving a pension or retirement benefit from a plan under this section if the retirant becomes employed by a county that has established a plan under this section:

(a) Payment of the pension or retirement benefit to the retirant shall be suspended if the retirant is employed by the county from which the retirant retired and the retirant does not meet the requirements of subdivision (b) or (d).

Subdivision (28)(d), MCL 46.12a(28)(d), deals with certain employees of the state judicial council and, thus, is not germane to your question. Subdivision (28)(b), MCL 46.12a(28)(b), is germane. It provides:

(b) Payment of the pension or retirement benefit to the retirant shall continue without change in amount or conditions by reason of employment by the county from which the retirant retired if all of the following requirements are met:

(i) The retirant meets 1 of the following requirements:

(A) For any retirant, is employed by the county for not more than 1,000 hours in any 12-month period.

(B) For a retirant who was not an elected or appointed county official at retirement, is elected or appointed as a county official for a term of office that begins after the retirant's retirement allowance effective date.

(C) For a retirant who was an elected or appointed county official at retirement, is elected or appointed as a county official to a different office from which the retirant retired

⁴ Your request letter refers to MCL 46.12a(29). Subsequent to your request, the Legislature enacted 2002 PA 730 which amended MCL 46.12a to remove the requirement for a county pension plan committee. This caused a renumbering of MCL 46.12a's subsections, so the operative subsection here is now MCL 46.12a(28) rather than (29).

for a term of office that begins after the retirant's retirement allowance effective date.

(D) For a retirant who was an elected or appointed county official at retirement, is elected or appointed as a county official to the same office from which the retirant retired for a term of office that begins 2 years or more after the retirant's retirement allowance effective date.

(ii) The retirant is not eligible for any benefits from the county other than those required by law or otherwise provided to the retirant by virtue of his or her being a retirant.

(iii) The retirant is not a member of the plan during the period of reemployment, does not receive additional retirement credits during the period of reemployment, and does not receive any increase in pension or retirement benefits because of the employment under this subdivision.

By its plain terms, MCL 46.12a(28) mandates that, if a retired county employee is reemployed by the county, the employee's pension or retirement benefit may continue to be paid only if each of three specific conditions is met. First, pursuant to subsection (b)(i), unless the position is one of the qualifying elected or appointed positions, the reemployed retirant must work less than 1,000 hours per 12-month period. Second, pursuant to subsection (b)(ii), the employee must not be eligible for any employee benefits other than those required by law⁵ or those provided by virtue of his or her being a retirant.⁶ Finally, under subsection (b)(iii), the employee may not be a member of the county's retirement plan and may not receive additional retirement credits during the period of reemployment. Unless each of these conditions is met, payment of the employee's pension or retirement benefit "shall be suspended."

⁵ Among employee benefits "required by law" are worker's compensation coverage pursuant to MCL 418.101 *et seq* and, for applicable employees, overtime compensation under MCL 408.384a.

⁶ A county pension plan may provide group life, health, accident and hospitalization coverage to retirants. MCL 46.12a(1)(a). Retirant insurance benefits often differ from active employee insurance benefits. For example, health,

It is my opinion, therefore, that consistent with MCL 46.12a(28), a county may adopt a deferred retirement option plan (DROP) and may, with approval of the affected employee, pay the employee's retirement or pension benefit into the DROP program if (1) the reemployed retirant works less than 1,000 hours per 12-month period or the position is an elected or appointed position meeting the requirements of MCL 46.12a(b)(i)(B)-(D); (2) the employee is not eligible for any employee benefits other than those required by law or those provided by virtue of being a retirant; and (3) the employee is not a member of the county's retirement plan and does not receive additional retirement credits during the period of reemployment.

accident, and hospitalization benefits for retirants are commonly coordinated with Medicare coverage. Group life coverage, if provided for retirants, is often less extensive than that provided active employees.
